

SENIOR ENGINEERING TECHNICIAN

Salary: \$35,767

Fulltime with Benefits

Warren County is seeking a **Senior Engineering Technician**. Position will be filled on a provisional basis pending results of a civil service examination to be held at a later date. Candidate must meet civil service requirements for appointment following establishment of eligible list.

Performs sub-professional technical duties in the field of engineering; does related work as required. An employee in this class is responsible for the more difficult sub-professional assignments in engineering work including supervision of field survey parties, and the inspection of construction work and materials. Assignments received orally or in writing are of a general nature thus allowing opportunity for the use on independent judgment in choosing methods for accomplishing a particular task. Supervision is usually exercised over subordinate engineering aides and other lower ranking personnel. Work is subject to review in process upon completion by professional engineering personnel. This class is distinguished from that of Engineering Technician by reason of the greater degree of independence with which an employee works, the higher the technical skills required and the increased supervisory responsibilities.

Minimum Qualifications:

- (a) Graduation from a regionally accredited or New York State registered college, university or technical institute with an Associate Degree, or higher in engineering, construction, environmental science or related field; or
- (b) Graduation from high school and two (2) years' experience assisting engineering work and or construction work; or
- (c) Any equivalent combination of experience and training.

Special Requirement: A valid license to operate a motor vehicle in New York State is required at the time of appointment.

WARREN COUNTY IS AN EOE/AA EMPLOYER.

APPLICATIONS ARE BEING ACCEPTED UNTIL POSITION IS FILLED.
