

- Amy Drexel, Local Emergency Planning Committee (LEPC) Update:
 1. There is a brand new Hazardous Materials Response Plan in place. Amy noticed ESF10 was omitted from the front page and will be added.
 2. Sandy LeBarron will meet with Amy after the meeting on a few other suggestions/changes.
 3. Amy reported the Plan will go to the County Board for approval and then to the State. Once, approved, the master plan will be placed on the LEPC website.
 4. E Plans have been extremely helpful and are still being used for those facilities that have to show what kinds of chemicals are on-site. Due to budget cuts, E Plans were going to be eliminated by the federal government. But due to diligent letter writing , E Plans have been maintained.
