

- **Amy Hirsch, Coordinator, LEPC:**

1. All Tier 2 reports are in – with only one new chemical “TALC”. There were six new reporters this year.
2. Annual HAZMAT Plan update due by August. Amy will send to committee for review prior to that date.
3. The Annual Federal DOT Grant with LEPC can no longer be used for purchasing food. The seven- county HAZMAT Consortium will pool their monies and do at least one if not two tabletops. The After Action Report information will be used to address “Bulk Crude Oil Transportation”.
