Using the Warren County Spatial Data Viewer Mapping Website

Find a Parcel

1. Click on the Search for Parcel link at the top center of the screen.
2. A new window will appear. You can find a parcel by the Tax Map number (New Number), owner's last name (Last Name) or the physical E-911 address of the property (Address). From the *Search Type* dropdown, choose one of the three options (see image below).

3. Enter a value in the text box.

Last Name Search String:

4. Click the *Search* button.

Using the Warren County Spatial Data Viewer Mapping Website

If there are any matches, the candidates will be displayed in a separate window. Select or zoom to a parcel by choose a radio button for the desired property (see image below).

Using the Warren County Spatial Data Viewer Mapping Website

The map will zoom in to the property. If the *Select Parcel* radio button was chosen, the parcel will have a thick green outline.

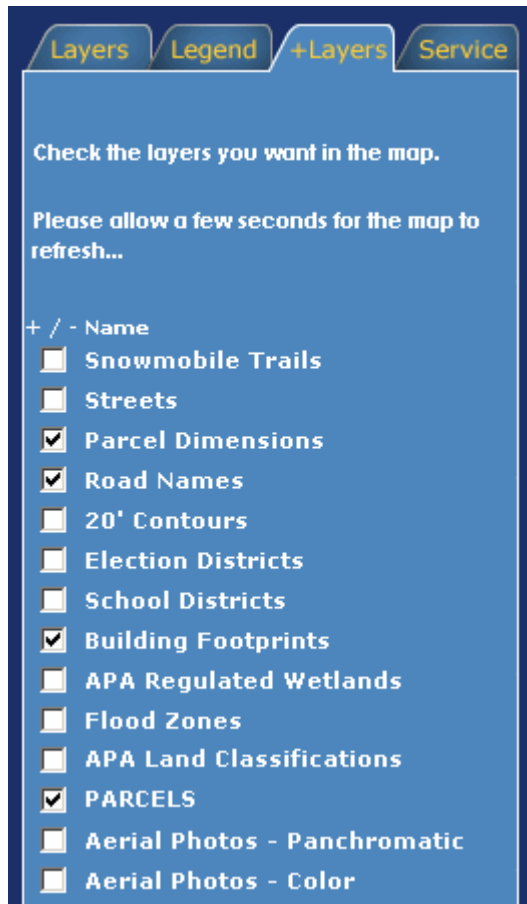

NOTE! You can also manually select a parcel by choosing *Select a Parcel* from the dropdown list at the top right corner of the screen and clicking on the map.

Using the Warren County Spatial Data Viewer Mapping Website

View Other Data on the Map

By default, only a few data sets are visible on the map. There are many other layers (e.g., zoning, aerial photos) that can also be turned on.

1. Click on the [+Layers](#) tab on the right side of the screen.

In the image to the right, aerial photography, streets, and contour lines have been turned on.

2. Check the box next to the layer you want to see on the map.

Using the Warren County Spatial Data Viewer Mapping Website

Navigating and Measuring in the Map

To ZOOM IN (i.e., see a smaller section of the map, versus the entire town), choose *Zoom in* from the dropdown list at the top right corner of the screen.

- Either click or click and drag a box around the area of the map you want to zoom in to

To ZOOM OUT, choose *Zoom out* from the dropdown list at the top right corner of the screen.

- Either click or click and drag a box around the area of the map you want to zoom out from

To MOVE to a different area of the map without zooming in or out, choose *Pan* from the dropdown list at the top right corner of the screen.

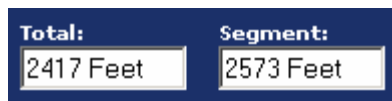

- Click and drag in the map to view a different area

To MEASURE distances on the map, choose *Measure* from the dropdown list at the top right corner of the screen.

1. In the top right corner of the screen, choose FEET or MILES as the measurement units.

2. Click on the map to start measuring, and click the next location. The length of the segment, and the total of all segments measured are display at the top left corner of the screen.

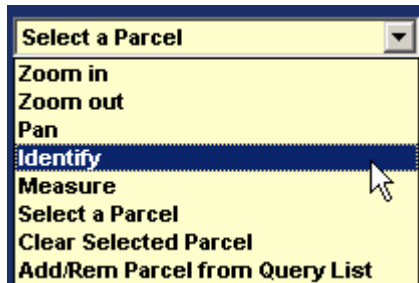

3. To re-start measuring, click the *Reset* link at the top right corner of the screen (where you set the measurement units).

Using the Warren County Spatial Data Viewer Mapping Website

Identifying Feature on the Map

Although many of the layers are color-coded to display different values (e.g., zoning classification, flood zone type), you can also click on features visible on the map to display more information.

1. From the dropdown list at the top right corner of the screen, choose *Identify* from the list.

2. Click on a features (or features) in the map. A window will open displaying information about any features click on.

A screenshot of a feature information window. The window has a dark blue header with the title 'Streets'. Below the header, there are several sections: 'No Items Found', '20' Contours' with a 'Contour (feet)' input field set to '860', 'APA Land Classifications' with a 'Land Classification' dropdown set to 'Rural Use', and 'PARCELS'. Below these sections is a table with 13 columns: Tax Map Number, Location, Acres, Frontage, Depth, Current Land Assessment, Current Total Assessment, School District, Owner 1, Owner 2, Address 1, Address 2, and City & State. The table contains one row of data for parcel 211.04-1-18.

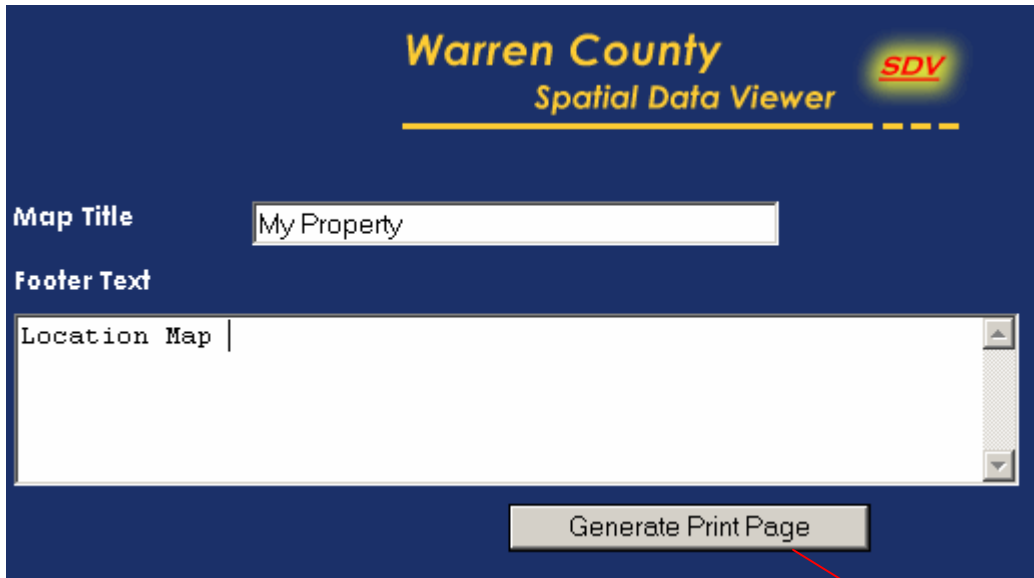

Tax Map Number	Location	Acres	Frontage	Depth	Current Land Assessment	Current Total Assessment	School District	Owner 1	Owner 2	Address 1	Address 2	City & State
211.04-1-18	264 DIAMOND PT RD	30.86000061035	0	0	38900	110000	Warrensburg Csd	SMITH, WILLIAM A	Smith, Gloria	2032 Harrington Hill Rd	No Value	Lake Georg NY

Using the Warren County Spatial Data Viewer Mapping Website

Printing a Map

There are two types of maps that be printed: an HTML map and a PDF map.

The **HTML** option copies exactly what you see in the map area of the screen into a new webpage with a legend, title and footer (for additional information).

Using the Warren County Spatial Data Viewer Mapping Website

The **PDF** option creates a new Adobe Acrobat PDF document, but only displays the parcel boundaries and aerial photography (if the imagery is turned on in the Spatial Data Viewer!).

1. Click the *Print Map – PDF* link at the top left corner of the screen.
2. A new window will pop up. Either use the default map scale or use the dropdown list to pick another option.
3. Click the *Generate PDF* button.
4. A new window will appear. *Click on the Click here to Download your 1:xxx PDF map...* link (the scale Will depend on what you picked for Step 2).

Using the Warren County Spatial Data Viewer Mapping Website

5. You may get a File Download warning message. Click [Open](#) to view the map, or [Save](#) to save the map to your computer.
