VA adds ships to A/O exposure List~

Too many to list in this newsletter but please call the office and I will confirm whether or not the ship you were assigned to is listed.

VA review found possible inconsistent dependent identifying data~

In October 2009, a data review conducted by the VBA found veterans' records with possible inconsistent identifying data for dependents that could result in improper payments being made to veterans.

VA will be sending letters out on two types of situations:

- Those that contain records where it appears that two veterans are receiving benefits for a spouse with the same name/SSN/date of birth.
 - Those that contain records where it appears the SSN may have been entered incorrectly.
-

Education~

Paving the way for recipients of the Post-9/11 GI Bill to attend higher-cost schools, the Department of Veterans Affairs (VA) has entered into more than 3,200 agreements with over 1,100 schools for the upcoming academic year under the "Yellow Ribbon" program. Schools can enter into multiple agreements with VA to accommodate different programs of study offered.
