REMARKS ON THE HARVEST OF 1864.—Here state whether the yield of any particular crop, reported on the preceding schedule, was affected by drought or otherwise. If so, to what relative amount as compared with common years? The crop in consequence of the drought in 1864 was at least one quarter less than in common years. The wheat crop was about an entire failure. The same system of it was not so great as usual.

REMARKS ON THE INFLUENCE OF THE WAR UPON PRICES.—What is the average monthly pay (including board), of farm laborers through the summer months 1.25. What by the year? 12.00. What were these wages in 1861? 10.00. Has the price of farming lands increased since 1861? Yes. State the relative increase. How has the war affected the amount of debt between individuals? How has it tended to promote prompt payments? How has it influenced the amount of crime? How has it influenced pauperism? What other changes in the social condition of the people have you

GENERAL REMARKS.—I am not sufficiently conversant with business matters in general, to form an opinion on some of the above questions, but in regard to prompt payments I should think the war has had an influence to make them more prompt.
