REMARKS ON THE HARVEST OF 1864.—Here state whether the yield of any particular crop reported on the preceding schedule, was affected by drouth or otherwise, if so, to what relative amount as compared with common years! The Pot crop was almost an entire failure in parts of this District in some was it over three fourths of an average crop. Corn & Hay were fully one fourth less. Buckwheat is not sown here till July, so not reported for this present year.

REMARKS ON THE MORTALITY OF THE YEAR ENDING JUNE 1, 1865.—State whether any epidemic or other natural or known causes operated to vary the number of deaths: No epidemic has prevailed in this District

REMARKS ON THE INFLUENCE OF THE WAR UPON PRICES.—What is the average monthly pay (including board), of farm laborers through the summer months? \$3 to \$3.50. What by the year? \$15 to \$18. What were those wages in 1860? \$15, \$18, & \$20. Has the price of farming lands increased since 1860? yes. State the relative increase: 25 per centum. How has the war affected the amount of debt between individuals? relatively, but little. What effect has it had upon credit? diminished it. Has it tended to promote prompt payments? It has. How has it influenced the amount of crime? materially less. How has it influenced pauperism? impossible to tell. What other changes in the social condition of the people have you observed since 1860? The people have been too generous to determine the amount of pauperism. Social condition improved.

GENERAL REMARKS.—Real estate has fallen off in value since the war closed — back to its former standard. Many judicious men think it will fall 25 per cent. lower.
